JUST SUPPOSE A CASE.

Suppose lightning should strike the court house in your county and burn it down, leaving you without a home for the county offices and without vault protection for the county records, would you not favor a proposition that had for its object the building of a new court house? Of course you would; it's almost an insult to your intelligence and enterprise to raise the question. The State of Missouri, your state that you love so well, is confronted with exactly this condition. Lightning destroyed the capitol; the state offices are homeless; the state legislature is without a place to meet; the state records, priceless and of incomparable value, are at the mercy of fire and storm—liable to destruction at any time. Under such circumstances, to even raise the question as to whether or not the loyal Missourians favor rebuilding an adequate capitol as soon as possible is almost an insult to his spirit of pride and progress.

\$3,500,000 NOT TOO MUCH.

At first blush three and one-half million dollars may look like a large sum to invest in a capitol building for even so splendid a state as imperial Missouri. But when you take into consideration the increased cost of building material and labor over a few years ago, you must realize that the sum asked is a very modest one. The fact that the building is to be fire-proof throughout should not be overlooked in considering the question of cost. And then, too, we should not forget that while there may be those who consider three and one-half million dollars too much, there are others who believe it too little. This element in the legislature forced the submission of a five million dollar proposition in the event of the defeat of the smaller amount. And when we consider that the three and one-half million dollar capitol must receive two-thirds majority, while a bare majority will carry the five million dollar one, every advocate of economy ought to be at work for the proposition to be voted on August 1st.

Must sell before leaving for Excelsior Springs, Thursday, three-burner Quick Meal coal oil stove and oven. Only four gallons of coal oil burned in it. Same as new. Also electric iron used one week, cheap. Call at 497 West First street. 26-27

TWO SOCIETY GIRLS DIE IN FIRE

Lose Lives When Barnes' Boat-house Burns at Nantucket.

SERVANT IS FATALLY BURNED.

Conflagration Starts When Smoker Throws Lighted Match on Recently Oiled Floor—Victims Penned in Small Room by Flames.

Nantucket, Mass., June 26.—Miss Helen Wilson of New York city and Miss Mildred De Haven of Brooklyn, both prominent in society, lost their lives in a fire which destroyed a boathouse owned by William J. Barnes, Jr., chairman of the New York Republican state committee. Several other persons were injured, among them Thomas Kerr, who may not recover.

The fire was started by a match thrown on a recently oiled floor. Almost immediately the room was filled with flames and those who escaped did so only by jumping overboard. The bodies of the dead were recovered, but both were burned beyond recognition.

The young people were the guests of Thurlow Barnes and were having a house party. Mr. and Mrs. Barnes are at their home in Albany, N. Y. Although in a serious condition from inhaling smoke and fumes, young Barnes was able to tell this story of the fire:

"We were sitting about the boathouse listening to a phonograph when one of the young men threw a smoking match to the floor. It landed close to a mop which had been used during the day to oil the floor and which was standing in the corner. Almost immediately the fire spread over the entire floor and a minute later the room was a mass of flames.

"All of the doors were closed and with one accord we started for them. Miss Wilson and Miss De Haven went to the wrong door and were penned in a small room. The rest of us reached the outer air and were able to save ourselves by jumping into the water. When we realized that Miss Wilson and Miss De Haven had not escaped there was no way for us to go back after them."

Ulysses Pahud, a valet in the employ of William Barnes, Jr., also was seriously injured and is not expected to live. The only members of the party who escaped without injury were Harry and Ruth Wilson, brother and sister of the burned girl, and Miss Phoebe Judkins.

HARVEST HAND RUSH OVER

For the First Time Kansas Has Had Enough Men to Garner Wheat Crop.

Topeka, June 26.—The rush of harvest hands for the wheat fields of Kansas is virtually over. For the first time in the history of the state more harvest hands have come than could find employment. In some years there has been a congestion of harvest hands at some central point, such as Larned or Great Bend, but this has always been quickly remedied and the hands were sent to points in the state where their services were needed. This year wheat cutting began from two to three weeks earlier than it has for years and in but a very few days it became evident that there would be more hands coming to Kansas than would be needed. One of the prime causes of this was the fact that none of the neighboring states in the wheat belt asked for hands this year, Kansas alone having a crop large enough to need outside help.

FARMERS HALT A RAILROAD

With Shotguns Sedgwick County Men Stand Guard Against Midland Valley.

Wichita, Kan., June 26.—Two "irate" farmers, armed with shotguns, which are said to be loaded, have stopped work on the Midland Valley railroad at Derby, ten miles south of here. Harvey Pitman and Sidney Summers are the two farmers who object to the building of the line across their property.

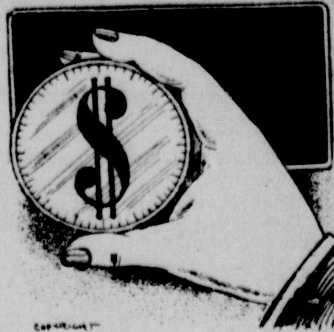

The two men do not object to the railroad, but they do not desire it built just where the engineers have set the stakes. The two men say that their farms will be ruined if the grade is built as planned and they insist on a larger amount of damages than was given them. The first snag the graders struck was when they reached the farms and found that the grade stakes had been removed and the graders had no marks by which to work. Then the graders were ordered off both properties by the owners and told to stay off.

Populist State Convention.

Oscola, Neb., June 26.—The call for a state committee meeting of the Populist party was sent out from the secretary's office, the meeting to be held in Grand Island on Friday evening, June 30. At that time the place for holding the next state convention will be decided upon.

Build Big Road in One Day.

Ottawa, Kan., June 26.—In one day, July 11, 1,000 men in Franklin, Osage and Coffey counties will make forty-five miles of good road between this city and Lebo, Kan.

PROPHET SMITH ON THE STAND

House Probers Seek Further Insight Into Mormon Sugar Deal.

BURKETT NAMED IN INQUIRY.

Chairman Hardwick Asks as to Former Nebraska Senator's Alleged Change of Front on Sugar Tariff. First Reported for Reduction.

Washington, June 26.—Further insight into the relations of the Mormon church and the American Sugar Refining company will be sought today by the house sugar trust investigating committee from Prophet Joseph F. Smith, head of the Church of Jesus Christ and the Latter Day Saints. Both Prophet Smith, who is president of the Utah-Idaho Sugar company, and holds as trustee of the people nearly 50,000 shares of sugar stock, and Bishop Nibley, business manager of the church, are here.

Senator Switched on Sugar. Chairman Hardwick brought in the name of former United States Senator Burkett of Nebraska by questioning President Chester S. Morey of the Great Western Sugar company about the Great Western's establishment of a beet sugar factory at Scottsbluff, Neb.

"Had you heard it currently reported during the sugar tariff negotiations in 1909," asked Hardwick, "that Senator Burkett had changed front on the sugar tariff and voted for duty?"

"No, I had not heard it."

"Do you know whether the information that a beet sugar factory was to be established at Scottsbluff had anything to do in influencing the vote of any western senator on the sugar tariff?"

"No," said Mr. Morey. "I don't see how that could have been, because the factory at Scottsbluff was not established until after the passage of the tariff bill."

Hardwick Explains.

Hardwick explained that Burkett first was reported to be lined up with Senator Bristow and other Republicans who wanted to reduce the tariff on sugar and that when people in his state became interested in a beet sugar proposition he changed his mind. Morey said he knew nothing about it.

The witness declared that there was no agreement or understandings between the Colorado group of sugar factories with the Utah or California groups as to selling territory, prices, etc. Removal of the tariff on sugar, Morey said, would kill the beet sugar business.

"Would a considerable tariff reduction affect the business?" Representative Malby asked.

"It certainly would. We are running on a close margin now and tariff reduction would certainly operate to our disadvantage."

TRAIN IS "COOLED IN"

Engine Buried Under Avalanche of Fuel at Oxford Junction, Ia.

Omaha, June 26.—The Denver special on the Northwestern arrived in Omaha six hours late. It left Clinton, Ia., at midnight on time. Forty miles west of there, at Oxford Junction, a stop was made for coaling. The chute is of the most up-to-date character. The coal is elevated to a considerable height above the main line, which passes directly beneath the supply, usually kept at 150 tons. When a train stops to coal, a rope falling to the ground is pulled and six tons of fuel fall into the tender in three seconds. The fall is checked automatically by the same rope. In coaling the Denver special, the Greek, who operated the chute, inadvertently let the end of the rope trail down into the tank, where it was caught and held in a firm grip by the first ton that came, and when the full complement had been received and an attempt was made to shut off the flow, it was no good. The engineer and fireman, seeing the danger, deserted the cab, the Greek fled and the rain of coal continued until the whole of the 150 tons had been delivered. Several scores of laborers were put to work, but it was not until after 5 a. m. that the dead engine was uncovered. A relief engine had been sent to take the place of the disabled one and long after sunrise the journey was resumed.

Beatrice, Neb., June 26.—John Scheve, a prominent German farmer living northwest of town, began threshing his 260-acre field of wheat, which is yielding twenty bushels to the acre. The grain is of fine quality. Farmers place the average at twenty bushels to the acre in Gage county.

AUSTRIA TIRED OF ALBANIAN WAR

Using All Possible Means to Put an End to Uprising.

OTHER NATIONS JOIN HANDS.

Russia, Italy and Germany Insist Upon an Agreement—Balkan Confederacy Is Feared—Garibaldi's Appearance to Form Republic.

Vienna, June 26.—Austria is using all possible pressure to put an end to the uprising in Albania. Russia, Italy and Germany also are urging upon the sublime porte the necessity of coming to an early agreement with the Albanian rebels.

It has just developed the reason for this anxiety for peace in European Turkey is not so much sympathy for the Albanians, who are being harried in good old Turkish style, as it is the growing fear that the turmoil there may result in the welding together of Albanians, Bulgarians, Serbs and Montenegrans into a great Balkan confederacy, which will drive Turkey across the Bosphorus and disturb the balance of Europe.

A story is current in diplomatic circles here, which gains much credence, that the grandsons of the Italian liberator, Garibaldi, have undertaken the task of bringing into being this new empire, or it may be the Balkan republic. One of the young Garibaldis already has been active in gaining sympathy for the Albanians and has been prevented only by the close watchfulness and strenuous precautions of the Italian government from leading an army of liberation to the aid of the Turkish mountaineers. The older brother, who gained distinction in the recent Mexican revolution, it is understood, is soon to be in Europe, with the determination to offer his sword against Turkey.

Should the Garibaldis openly join the Albanians it is believed they would attract soldiers from all sections of the world and create a condition which would make it impossible to prevent Montenegrans, Serbs and Bulgarians, blood brothers of the Albanians, from joining in the campaign. They are restrained now only with the greatest difficulty.

The hope of the Garibaldis, it is said, is to form a new republic, including the European vilyities, Montenegro, Serbia, Roumania and Bulgaria. While this is regarded as not at all possible, there is grave danger that a Balkan federation may be brought about which would be formidable enough to have a potent voice in the affairs of eastern Europe.

DISCOURTESY TO MRS. TAFT

Speaker Against Reciprocity Causes Upheaval in Canada.

Winnipeg, Man., June 26.—A parallel drawn between Finance Minister Fielding and President Taft on the one hand and Samson and Delilah on the other, by J. G. M. Bergeron of Quebec, who is accompanying R. L. Borden, leader of the Conservative party, in a whirlwind tour of the west against reciprocity, has caused an uproar among the settlers from the United States.

Bergeron, who may become a minister if Borden retains power in the Dominion, in making his comparison, alleged that Mr. Fielding had succumbed to the blandishments and wiles of "Mrs. Taft," who had blinked at him from the White House.

At Medicine Hat, Alberta, Mr. Bergeron denied that he had been discourteous to "Mrs. Taft," or any other ladies. He admitted that he had spoken of Fielding and the president in comparison with Samson and Delilah.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair Is First Sign of Age. Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

Everybody Knows Something About Lumber Values

these days, but the homebuilder who listens to the cry of "wait until lumber is cheaper" is not apt to be any nearer his goal on his deathbed than he is today.

The Government recommends TIMBER CONSERVATION and this alone is proof that lumber has a fixed value.

Our years of experience in buying and selling lumber lead us to advise our friends that NOW'S THE TIME TO BUILD. There's but one crop of timber for most of us. If you contemplate a new home we want to talk with you—we have all grades of lumber. The lowest quality starts at good and goes up. Give us a call and learn the facts about these lumber values.

E. J. WILLIAMS DEAD

DEATH OCCURRED VERY SUD-
DENLY MONDAY MORNING.

WAS HIS 62D BIRTHDAY

Was President of Real Estate Bank—
Funeral Services Wednesday at 2
o'clock at St. Paul's Church.

Elias J. Williams, president of the Real Estate bank of this city, died very suddenly this morning of apoplexy about five o'clock, his death occurring on the anniversary of his birth. He was discovered dead in his bed by Mrs. Williams about 6:30 o'clock and she at once sent for Dr. W. Dean, who arrived in a short time, and said death was caused from apoplexy.

Mr. Williams appeared to be very well and enjoying the best of health when he retired Sunday night. On Sunday afternoon, he had taken a buggy ride to his farm east of the city and when he arrived home, he complained some of being very warm, but made the remark that the heat had not bothered him very much. Mr. Williams had not been sick a day for many years and when the news was spread about the city this morning of his death, it could scarcely be believed.

The funeral services will be held Wednesday afternoon at 2 o'clock at St. Paul's Episcopal church. Burial will take place in Miriam cemetery, the services at the grave to be conducted by the Masons.

Mr. Williams was a native of Wales and was born June 26, 1849. He was reared and educated in his native country, becoming thoroughly conversant with the milling business, which he followed in Wales till 1868, when he came to America, landing at New York. He was located in Utica, New York, for one year, then in Philadelphia for six months, and afterward for six months in Cincinnati. At the expiration of this time he came to Missouri and resided in St. Joseph till 1875, when he came to Maryville, where he has since resided. He established the old city mill, located at Second and Market streets, soon after coming to Maryville, and successfully conducted it until he assumed the presidency of the Real Estate Bank in 1904.

On June 6, 1904, Mr. Williams was selected as president of the Real Estate Bank to succeed Geo. S. Baker, who retired from active business life. Mr. Williams was a good business man and banker and built up the bank materially.

On October 26, 1886, M. Williams married Miss Caroline Wessleah of this city, the ceremony being performed by Rev. J. H. Cox. By this union, one child was born, Edward E. Williams, who is a director in the Real Estate bank and an attorney of this city. Mrs. Williams died on Aug. 2, 1897, in this city.

Four years later, October 9, 1901, Mrs. Williams married Mrs. Belle Walker, the widow of the late Shubal G. Walker, who was a well known druggist of this city. One child was born to them, Donald E. J. Williams, who, with Mrs. Williams and her son, Harold M. Walker, and Edward E. Williams, survive. One brother also survives—Owen, formerly of this city, but now of Glendive, Mont.

Mr. Williams was a member of Nodaway lodge, No. 470, A. F. and A. M., Royal Arch chapter No. 96, and Maryville commandery, No. 40, Knights Templar. He had filled various offices in the Masonic bodies and is a past master. He is a member of White Cloud lodge, No. 92, I. O. O. F., being treasurer of that lodge at the time of his death. He was also a member of the Knights of Pythias. In politics he was a Republican. He was a member of St. Paul's Episcopal church of this city, and was for years one of its most faithful communicants.

Mr. Williams was a man of strong, agged character. He was so thor-

oughly honest that in all the years that he has been so prominently identified with Maryville's business life it is not believed by those who knew him best that he ever thought to deal wrongfully with any one, and it never seemed to occur to him that there was any way but the right way to deal with his fellowmen.

He was never known to speak an ill word of any one. If he did not know a good thing to say he considered that he had no right to speak ill. But he freely gave every expression of encouragement he knew how to give to everyone, and he has proven himself the good friend to many young men in our city who are going to sadly miss his genial, kindly words and his good advice to them. He had worked hard all his life and had met with experiences and conquered hard things that made him capable of proving himself a friend worth while. He had a big, kind, loving heart, and he sympathized with all who were in trouble of any kind.

He was a clean, unassuming, God-fearing man, true in every relation of life. His family, to whom he was always devoted, has the sympathy of all in the grief that has come to them without a moment's warning.

HARRIS RETURNED FROM NEW YORK

Berney Harris returned Sunday from a trip to New York and the east. Mr. Harris says that rain has fallen generally from New York to St. Louis, and that it was raining nearly all the way on his trip home. While in the east Mr. Harris accompanied his nephew, Edmond Bree of St. Louis, a student at Yale college, to see a ball game between Yale and Harvard. Mr. Harris, being an enthusiastic fan, thoroughly enjoyed the game, but all his "rooting" could not keep Harvard from winning.

HAND INJURED CAUSING BLOOD POISONING

He has been confined to his home since last Thursday and has been seriously ill. His physician has the case under control, however, and thinks he will recover.

Sunday's Game.

In a fast and close game Sunday the Comets defeated Auburn 3 to 2. Southward was put in to redeem himself of that awful game at Auburn, and he came through with the goods, too. Hirsch, the winner of the Auburn game, was forced to stand loser here.

The Comets started right around in the first, and it looked like it would be an easy victory. Sackett singled and Dietz reached first on an error, but was caught off second a moment later. Another error put Wintz on first and Cook binged to left, scoring the first run. Walsh singled to center and Wintz scored. DeCamp fanned and Bacom drew a pass. Black furnished the last out with a fly to right.

With one down in the third Cook smashed a three-bagger to center, the wind robbing him of a home run. He was squeezed in by Walsh a moment later. Walsh was caught between first and second for the second out, and DeCamp finished with a grounder to second.

The Auburnites started around in the sixth in a way that looked bad, and were stopped just in time. Kraninger singled. Bright fanned and Free was cut off at first. Primley singled, scoring Kraninger, and Brewer poled a three-bagger into right, bringing in the second run. Zonderman was thrown out from Sackett to Bacom. That finished the tallying for both sides. With only one down the Comets lost a good chance to score in their half of the sixth, when with Walsh's single and DeCamp's two-bagger, Bacom fanned and Black flied to center.

Southward hit a stinging liner into left in the seventh which looked good for the entire course, but it hit the signboard and he was caught at second.

One of the features of the game was the umpiring, done by players. Griffin and Ed Bright were the indicator men and looked 'em over proper.

HIS CLOSING SERMON

DR. BRICKER GAVE FAREWELL ADDRESS SUNDAY.

TO LEAVE THIS EVENING

For Atlanta, Ga., to Take Charge of Christian Church Pastorate—Farewell Reception Tonight.

On Sunday evening Rev. L. O. Bricker preached his closing sermon to the members of the Christian church of this city, where he has been pastor for the past two and a half years.

At the morning service Rev. Bricker gave an address on "The Pilgrimage of Faith." The choir rendered a musical program consisting of an anthem, "O Worship the King," with obligato solo by Miss Litta Roelofson; solo, "O Eyes That Are Weary," by Mrs. F. P. Robinson. In the evening Rev. Bricker gave a sermon story on "Jean Valjean—the Dream of a Soul's Redemption," after which baptism was administered to one applicant. The following musical program was rendered at the evening service:

Anthem, "Awake and Sing the Song," by the choir, with obligato solo by Mrs. F. P. Robinson; quartet, "Savior, When Night Involves the Skies," Mrs. F. P. Robinson, Miss Saylor, W. E. Goforth and H. J. Becker; anthem, "Yea, E'en as Die the Roses," choir, with obligato solo by Mrs. D. J. Thomas. Both of Rev. Bricker's sermons were thoughtful, earnest and well delivered.

Rev. Bricker leaves this evening with his wife and little daughter, Aileen, for Atlanta, Ga., to accept the pastorate of the First Christian church.

On Monday evening a farewell service has been planned by the members and will be given in the church parlors. Rev. Bricker will bid the members of his church and his friends good bye at the church, where he will remain until the cab calls to convey him and his family to the Washburn depot, when they will go to Atlanta, Ga., by way of St. Louis.

Dr. C. P. Luce, pastor of the First Presbyterian church dismissed his evening service in compliment to Rev. Bricker, and with his congregation joined in worship with the Christian church congregation.

Dr. Bricker has been very successful in his work at Maryville. He has built up the church, adding many new members, and it is now known as one of the strongest Christian churches in the state. His many friends are sorry to see him and his family leave Maryville, but wish him success in his new field at Atlanta, which is one of the strongest churches of the Christian brotherhood in the country.

DEATH OF MR. STURM

PASSED AWAY SUDDENLY SUNDAY MORNING.

WAS 75 YEARS OLD

Death, It is Thought, Caused by Grieving Over the Death of His Wife.

John S. Sturm died very suddenly at his home, corner of Walnut and Seventh streets, Sunday morning at about 8 o'clock. Mr. Sturm appeared to be in good health, but ever since the death of his wife, which occurred May 3, he had been grieving over her loss. At 7 o'clock Sunday morning Mr. Sturm was sitting out on the porch, and soon after his daughter, Mrs. Anna Carter, heard him calling for her to bring him a glass of water. He entered the house and expired a few minutes later, falling into the arms of Mrs. Carter, who made her home with him. Death, it is thought, was due to heart trouble, caused by brooding and grieving over the death of his wife.

Mr. Sturm was 75 years old and was born in Dearborn county, Indiana. January 8, 1859, he married Johanna Bohrer. He came to Maryville in May, 1882, and had since resided here, following his trade as a contractor and builder up to two years ago. He is survived by two children, Mrs. Anna Carter of this city and David W. Sturm of Wichita, Kan., who arrived in Maryville Monday morning.

The funeral services will be held Tuesday morning at 10 o'clock at St. Mary's Catholic church, conducted by Rev. Fr. Anselm.

MRS. HILL DIED SUNDAY MORNING

Mrs. Henry Hill died Sunday morning at 4 o'clock, after being critically ill for a week or so. She had been in poor health for some time.

The funeral services were held at the house at 805 South Walnut street Monday afternoon at 2:30 o'clock conducted by Dr. L. O. Bricker, pastor of the Christian church.

Mrs. Hill was born in Scranton, Penn., sixty-six years ago. She is survived by her husband, and three children, C. E. Hill of Tacoma, Wash.; Arthur Hill of Skidmore; and Mrs. Orville Bennett of this city.

Heads School in South Carolina.

Miss Mary West, deaconess of St. Andrews' Mission at Canton, S. C., visited in Maryville Friday and Saturday at the home of her cousin, Mrs. William Armstrong. Miss West is quite well known in Maryville, having frequently visited her from her home in St. Joseph with her grandmother, the late Mrs. T. W. Gulick, better remembered as Mrs. E. R. Cleland. She has charge of the school at Canton, which is a large industrial and training school for girls and young women.

JUST SUPPOSE A CASE.

Suppose lightning should strike the court house in your county and burn it down, leaving you without a home for the county offices and without vault protection for the county records, would you not favor a proposition that had for its object the building of a new court house? Of course you would; it's almost an insult to your intelligence and enterprise to raise the question. The State of Missouri, your state that you love so well, is confronted with exactly this condition. Lightning destroyed the capitol; the state offices are homeless; the state legislature is without a place to meet; the state records, priceless and of incomparable value, are at the mercy of fire and storm—liable to destruction at any time. Under such circumstances, to even raise the question as to whether or not the loyal Missourian favors rebuilding an adequate capitol as soon as possible is almost an insult to his spirit of pride and progress.

Visiting at Pickering.

\$3,500,000 NOT TOO MUCH.

At first blush three and one-half million dollars may look like a large sum to invest in a capitol building for even so splendid a state as imperial Missouri. But when you take into consideration the increased cost of building material and labor over a few years ago, you must realize that the sum asked is a very modest one. The fact that the building is to be fire-proof throughout should not be overlooked in considering the question of cost. And then, too, we should not forget that while there may be those who consider three and one-half million dollars too much, there are others who believe it too little. This element in the legislature forced the submission of a five million dollar proposition in the event of the defeat of the smaller amount. And when we consider that the three and one-half million dollar capitol must receive two-thirds majority, while a bare majority will carry the five million dollar one, every advocate of economy ought to be at work for the proposition to be voted on August 1st.

TWO SOCIETY GIRLS DIE IN FIRE

Lose Lives When Barnes' Boat-house Burns at Nantucket.

SERVANT IS FATALLY BURNED.

Conflagration Starts When Smoker Throws Lighted Match on Recently Oiled Floor—Victims Penned in Small Room by Flames.

Nantucket, Mass., June 26.—Miss Helen Wilson of New York city and Miss Mildred De Haven of Brooklyn, both prominent in society, lost their lives in a fire which destroyed a boathouse owned by William J. Barnes, Jr., chairman of the New York Republican state committee. Several other persons were injured, among them Thomas Kerr, who may not recover.

The fire was started by a match thrown on a recently oiled floor. Almost immediately the room was filled with flames and those who escaped did so only by jumping overboard. The bodies of the dead were recovered, but both were burned beyond recognition.

The young people were the guests of Thurlow Barnes and were having a house party. Mr. and Mrs. Barnes are at their home in Albany, N. Y. Although in a serious condition from inhaling smoke and fumes, young Barnes was able to tell this story of the fire:

Story of Tragedy.

"We were sitting about the boathouse listening to a phonograph when one of the young men threw a smoking match to the floor. It landed close to a mop which had been used during the day to oil the floor and which was standing in the corner. Almost immediately the fire spread over the entire floor and a minute later the room was a mass of flames.

"All of the doors were closed and with one accord we started for them. Miss Wilson and Miss De Haven went to the wrong door and were penned in a small room. The rest of us reached the outer air and were able to save ourselves by jumping into the water. When we realized that Miss Wilson and Miss De Haven had not escaped there was no way for us to go back after them."

Ulysses Pabnd, a valet in the employ of William Barnes, Jr., also was seriously injured and is not expected to live. The only members of the party who escaped without injury were Harry and Ruth Wilson, brother and sister of the burned girl, and Miss Phoebe Judkins.

HARVEST HAND RUSH OVER

For the First Time Kansas Has Had Enough Men to Garner Wheat Crop.

Topeka, June 26.—The rush of harvest hands for the wheat fields of Kansas is virtually over. For the first time in the history of the state more harvest hands have come than could find employment. In some years there has been a congestion of harvest hands at some one central point, such as Larned or Great Bend, but this has always been quickly remedied and the hands were sent to points in the state where their services were needed. This year wheat cutting began from two to three weeks earlier than it has for years and in but a very few days it became evident that there would be more hands coming to Kansas than would be needed. One of the prime causes of this was the fact that none of the neighboring states in the wheat belt asked for hands this year, Kansas alone having a crop large enough to need outside help.

FARMERS HALT A RAILROAD

With Shotguns Sedgwick County Men Stand Guard Against Midland Valley.

Wichita, Kan., June 26.—Two "irate" farmers, armed with shotguns, which are said to be loaded, have stopped work on the Midland Valley railroad at Derby, ten miles south of here. Harvey Pitman and Sidney Summers are the two farmers who object to the building of the line across their property.

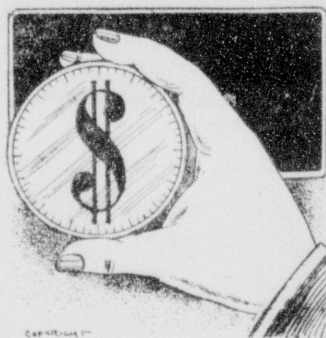

The two men do not object to the railroad, but they do not desire it built just where the engineers have set the stakes. The two men say that their farms will be ruined if the grade is built as planned and they insist on a larger amount of damages than was given them. The first snag the graders struck was when they reached the farms and found that the grade stakes had been removed and the graders had no marks by which to work. Then the graders were ordered off both properties by the owners and told to stay off.

Populist State Convention.

Oseola, Neb., June 26.—The call for a state committee meeting of the Populist party was sent out from the secretary's office, the meeting to be held in Grand Island on Friday evening, June 30. At that time the place for holding the next state convention will be decided upon.

Build Big Road in One Day.

Ottawa, Kan., June 26.—In one day, July 11, 1,000 men in Franklin, Osage and Coffey counties will make forty-five miles of good road between this city and Lebo, Kan.

BARON DE LORD IS BEHIND THE BARS

Son of Former King of Spain Arrested as Shoplifter.

Paris, June 26.—The son of an ex-king, Baron de Lord, has been arrested in Paris on a charge of shoplifting. The prisoner's father was M. Amedee, prince of Saloy, Duke of Aosta, who, under the title of Amedee I., was king of Spain from 1871 to 1873. Driven from his kingdom Amedee I. returned to Italy and there met the prisoner's mother.

Young Baron de Lord is said to have been a wayward youth. He neglected his studies and for a time was sent to sea in a menial capacity. When he returned to Italy, after four years' absence, he met and married the daughter of Count Rinaldo, a wealthy Italian nobleman. The bride brought a large fortune with her, and Baron de Lord was not long in embarking upon a life of extravagance and dissipation. Gradually he got into the hands of money lenders and in time got rid of his fortune. In the midst of this came a scandal, leading to a separation.

Eight months ago the baron, who had again figured in the Italian courts, went to Paris. He stayed at fashionable hotels and forgot to pay his bills. He was so much of a gentleman in appearance that the hotel keepers and tradesmen hesitated to have him arrested.

The Italian embassy was troubled with the baron and the Italian government had him watched with detectives sent from Rome. Recently the baron began to steal in the shops. In the hotel in the Avenue des Champs Elysee a police commissary found dozens of suits, hundreds of shirts and 1,000 ties. Tradesmen who had been swindled complained and eventually the son of Amedee I. was taken to the lockup. Since his arrest hosts of tradesmen have been besieging the police with complaints. The young man is now awaiting his appearance before the correctional court.

WON SECOND GAME

(Continued from page 1.)

Time, 1:45. Umpires, E. Bright and Griffin.

Saturday's Game.

With Sackett hitting right off the bat the first time up, his teammates following through with twelve more safeties, and a few critical errors by the Oaks, the third game was taken 10 to 5 by the Comets Saturday. The Oaks found Wise for nine hits, but couldn't make them win against the slugging of the Comets. McKee was knocked out of the box, Lark taking his place in the eighth. The ex-Comet was pounded for three singles and a two-bagger in the half inning which he worked. These, with two errors, netted three runs for the Comets.

Three clean hits brought in two more runs in the third. With one down Dietz and Wintz singled. Cook filed out to Coppess. Walsh poled a two-bagger into center for the count-ers, and DeCamp filed out to first.

Another one was chalked up in the fifth. Wintz singled but was forced out at second on Cook's grounder, and Walsh singled. Shenandoah, for the third time, tried to catch the man at second and get the runner at the plate. Cook and Walsh see-sawed back and forth, the ball following first one and then the other, until both men landed safe. Cook at home and Walsh on second.

The Oaks tallied three times in the sixth. A queer stunt happened in the seventh, netting two runs for Maryville. With one down Dietz singled. Cook was thrown out at first, landing Wintz on third. With three balls and two strikes on Walsh, the fourth ball hit the plate and bounded over the grand stand, allowing both runners to trot in home. DeCamp grounded to Coppess for the third out.

Singles by Castle and Coppess and a three-bagger by Ellis scored Shenandoah's last two runs in the eighth. The next three men were easy outs.

Lark then started the twirling for the Oaks. Moore singled, Black and Wise reached first on errors, filling the bases. Sackett pounded a two-bagger into left and the three men ahead of him raced home. Wise was called out, however, for failing to touch third base. Dietz filed to Coppess. Wintz singled, scoring Sackett. Cook singled, and a passed ball put the runners on second and third. Walsh then chopped out. The last strike was as clean a one as was ever thrown. Walsh began to chew at Sage on the decision and was benched at once. He kept up his ragging and Sage sent him out of the grounds and fined him \$5. The fans showed their appreciation of good umpiring by applauding Sage's move.

Cook went to second and Griffin to right at the beginning of the ninth. Simmons stuck on first on Cook's error, but the next three men up went out rapidly.

Notes.

Wintz held the batting honors Saturday with four hits out of five times up. He handed them over to Walsh Sunday, who took four out of four times up.

A new pitcher, a no-hit man from the Central association, is expected today.

Shenandoah was robbed of a clean triple play in Saturday's game because of the fact that there was already one down. With the bases full Dietz tried to squeeze. His bunt popped into the first baseman's hands for the first out. Moore raced across the pan and Griffin was within twenty feet of the plate when the ball was caught, while Sackett was almost on third. It was absolutely impossible for them to run back in time, and the ball was tossed from first to third and back again.

REBUILD THE STATE CAPITOL.

No tax payer should overlook the following important considerations with respect to the special election to be held on August 1st:

First: Missouri is without a capitol in which to transact public business and preserve public records. This is the result of a disastrous fire, and presents a situation that must be met by the people.

Second: The legislature provided two plans, one of which must be adopted, or the state be left without a capitol for years to come. The first of these propositions is the bond issue of \$3,500,000 to be voted upon on August 1st. If this fails a bond issue of \$5,000,000 is to be voted upon in November, 1912.

Third: By the adoption of the \$3,500,000 proposition on August 1st, the people can save \$1,500,000, upon the principal and more than \$1,000,000 in interest; and prevent two or three years of expensive delay in the completion of a new building.

Fourth: The amount each taxpayer will be called upon to pay is insignificant. For instance, a man owning a farm of the cash value of \$3,000, assessed at \$1,000, would be called upon to pay 20 cents a year for not over 13 years, with the prospect that he would have these taxes to pay for only eight years, owing to the rate of increase of the value of taxable property in the state from year to year, and the consequent increase in revenue.

BUILD THE CAPITOL NOW.

Across the bridge of "Do it now" lies the state of "get there." Missouri is a great commonwealth, a magnificent empire within herself. She is capable of the largest and best in every line of growth and development. In the absence of a capitol building, shall this mighty people procrastinate and fiddle along for years before taking favorable action in the matter? It would be a shame to make a football out of the capitol question and kick it about over the gridiron of state politics through the next campaign. It would be a disgrace to keep the issue before the people for a decade. Why not rise up like men of action and settle the matter on August 1st for all time to come by carrying the \$3,500,000 proposition?

TO SHOW THE WORLD.

The Holsten Progress aptly says that heretofore Missourians have demanded that the world "show us." The burning of the state capitol turned the tables, and now we've got to "show the world" that we are the greatest, the richest and most progressive state in the west, and a splendid new capitol will give us an opportunity to make the world "sit up and take notice." The Progress is right, and such a showing as we will give 'em will be worth much to Missouri—it's just the kind of advertising we most need just now.

PROPHET SMITH ON THE STAND

House Probers Seek Further Insight Into Mormon Sugar Deal.

BURKETT NAMED IN INQUIRY.

Chairman Hardwick Asks as to Former Nebraska Senator's Alleged Change of Front on Sugar Tariff. First Reported for Reduction.

Washington, June 26.—Further insight into the relations of the Mormon church and the American Sugar Refining company will be sought today by the house sugar trust investigating committee from Prophet Joseph F. Smith, head of the Church of Jesus Christ and the Latter Day Saints. Both Prophet Smith, who is president of the Utah-Idaho Sugar company, and holds as trustee of the people nearly 50,000 shares of sugar stock, and Bishop Nibley, business manager of the church, are here.

Senator Switched on Sugar.

Chairman Hardwick brought in the name of former United States Senator Burkett of Nebraska by questioning President Chester S. Morey of the Great Western Sugar company about the Great Western's establishment of a beet sugar factory at Scottsbluff, Neb.

"Had you heard it currently reported during the sugar tariff negotiations in 1909," asked Hardwick, "that Senator Burkett had changed front on the sugar tariff and voted for duty?"

"No, I had not heard it."

"Do you know whether the information that a beet sugar factory was to be established at Scottsbluff had anything to do in influencing the vote of any western senator on the sugar tariff?"

"No," said Mr. Morey. "I don't see how that could have been, because the factory at Scottsbluff was not established until after the passage of the tariff bill."

Hardwick Explains.

Hardwick explained that Burkett first was reported to be lined up with Senator Bristow and other Republicans who wanted to reduce the tariff on sugar and that when people in his state became interested in a beet sugar proposition he changed his mind. Morey said he knew nothing about it.

The witness declared that there was no agreements or understandings between the Colorado group of sugar factories with the Utah or California groups as to selling territory, prices, etc. Removal of the tariff on sugar, Morey said, would kill the beet sugar business.

"Would a considerable tariff reduction affect the business?" Representative Malby asked.

"It certainly would. We are running on a close margin now and tariff reduction would certainly operate to our disadvantage."

TRAIN IS "COALED IN"

Engine Buried Under Avalanche of Fuel at Oxford Junction, Ia.

Omaha, June 26.—The Denver special on the Northwestern arrived in Omaha six hours late. It left Clinton, Ia., at midnight on time. Forty miles west of there, at Oxford Junction, a stop was made for coaling. The chute is of the most up-to-date character. The coal is elevated to a considerable height above the main line, which passes directly beneath the supply, usually kept at 150 tons. When a train stops to coal, a rope falling to the ground is pulled and six tons of fuel fall into the tender in three seconds. The fall is checked automatically by the same rope. In coaling the Denver special, the Greek, who operated the chute, inadvertently let the end of the rope trail down into the tank, where it was caught and held in a firm grip by the first ton that came, and when the full complement had been received and an attempt was made to shut off the flow, it was no good. The engineer and fireman, seeing the danger, deserted the cab, the Greek fled and the rain of coal continued until the whole of the 150 tons had been delivered. Several scores of laborers were put to work, but it was not until after 5 a. m. that the dead engine was uncovered. A relief engine had been sent to take the place of the disabled one and long after sunrise the journey was resumed.

AUSTRIA TIRED OF ALBANIAN WAR

Using All Possible Means to Put an End to Uprising.

OTHER NATIONS JOIN HANDS.

Russia, Italy and Germany Insist Upon an Agreement—Balkan Confederacy Is Feared—Garibaldi's Appearance on Scene to Form Republic.

Vienna, June 26.—Austria is using all possible pressure to put an end to the uprising in Albania. Russia, Italy and Germany also are urging upon the sublime Porte the necessity of coming to an early agreement with the Albanian rebels.

It has just developed the reason for this anxiety for peace in European Turkey is not so much sympathy for the Albanians, who are being harried in good old Turkish style, as it is the growing fear that the turmoil there may result in the welding together of Albanians, Bulgarians, Serbs and Montenegrins into a great Balkan confederacy, which will drive Turkey across the Bosphorus and disturb the balance of Europe.

A story is current in diplomatic circles here, which gains much credence, that the grandsons of the Italian liberator, Garibaldi, have undertaken the task of bringing into being this new empire, or it may be the Balkan republic. One of the young Garibaldis already has been active in gaining sympathy for the Albanians and has been prevented only by the close watchfulness and strenuous precautions of the Italian government from leading an army of liberation to the aid of the Turkish mountaineers. The older brother, who gained distinction in the recent Mexican revolution, it is understood, is soon to be in Europe, with the determination to offer his sword against Turkey.

Should the Garibaldis openly join the Albanians it is believed they would attract soldiers from all sections of the world and create a condition which would make it impossible to prevent Montenegrins, Serbs and Bulgarians, blood brothers of the Albanians, from joining in the campaign. They are restrained now only with the greatest difficulty.

The hope of the Garibaldis, it is said, is to form a new republic, including the European vilayets, Montenegro, Serbia, Roumania and Bulgaria. While this is regarded as not at all possible, there is grave danger that a Balkan federation may be brought about which would be formidable enough to have a potent voice in the affairs of eastern Europe.

DISCOURTESY TO MRS. TAFT

Speaker Against Reciprocity Causes Uproar in Canada.

Winnipeg, Man., June 26.—A parallel drawn between Finance Minister Fielding and President Taft on the one hand and Samson and Delilah on the other, by J. G. M. Bergeron of Quebec, who is accompanying R. L. Borden, leader of the Conservative party, in a whirlwind tour of the west against reciprocity, has caused an uproar among the settlers from the United States.

Bergeron, who may become a minister if Borden retains power in the Dominion, in making his comparison, alleged that Mr. Fielding had succumbed to the blandishments and wiles of "Mrs. Taft," who had blinked at him from the White House.

At Medicine Hat, Alberta, Mr. Bergeron denied that he had been discourteous to "Mrs. Taft," or any other ladies. He admitted that he had spoken of Fielding and the president in comparison with Samson and Delilah.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair Is First Sign of Age. Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, get rid of them. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

Everybody Knows Something About Lumber Values

these days, but the homebuilder who listens to the cry of "wait until lumber is cheaper" is not apt to be any nearer his goal on his deathbed than he is today. The Government recommends TIMBER CONSERVATION and this alone is proof that lumber has a fixed value.

Our years of experience in buying and selling lumber lead us to advise our friends that NOW'S THE TIME TO BUILD. There's but one crop of timber for most of us. If you contemplate a new home we want to talk with you—we have all grades of lumber. The lowest quality starts at good and goes up. Give us a call and learn the facts about these lumber values.
